

OUR GRADUATES **SPEAK FOR THEMSELVES!** SUCCESS STORIES

Celia Pincus, Class of 2008

"Saint Mary Star of the Sea School prepared me for high school and college very well. Not only did the school provide us with an advanced education in core subjects, but it gave students a variety of extracurricular activities that allowed us to become well rounded and responsible individuals in more than one area of our lives."

"The most important things I learned at Saint Mary's were respect, responsibility, and the importance of faith in God. My strong faith in the Lord was instilled from the beginning of my time at Saint Mary's through the example of my teachers, the Sisters and the school environment."

"As an adult I see the importance of building a great foundation and set of values from a young age. I now use those that I learned from Saint Mary's in my job as a nurse every day by carrying the sense of responsibility and respect for all people into my work."

"One of my favorite memories from my years at Saint Mary's stem from the great relationships I made both with our teachers and life-long friends. In 8th grade, our class performed the play, *The Diary of Anne Frank*. We all had a blast working together as a team to pull off this great show."

ENROLLING NOW!
